

KYOCERA AVX Components Corporation

1 AVX Boulevard, Fountain Inn, SC 29644 USA

Phone: +1 (864) 967-2150 | www.kyocera-avx.com

Dear Valued Customer,

Thank you for visiting our certifications page. We unfortunately do not have the current certificate available at this time.

We have been experiencing delays with receipt of the certificates this year due to the extension of product matrix and request your patience as we work with European Space Agency (ESA) to provide the documentation as quickly as possible.

This manufacturing location, KYOCERA AVX Components s.r.o. (Lanškroun), is working on requalification at the moment. Once the data-package will be reviewed and confirmed by ESA, we should receive a new certificate. If you have any questions, the Quality Manager for this location is Mr. Milan Coufal.

Once the certificate is received it will be promptly posted to this site.

We value your business. Please accept our apologies. Thank you for your understanding in this unfortunate matter.

Regards,

KYOCERA AVX Quality
